In the early days of the advanced copperindustry-hegining with 1870, say the Superior mines were able to supply all the copper used in the United States. Montana was almost a trackless wilderness then, and Calumet & Heckfa, Quincey, Osceola and Atlantic mines were the chief source of the red metal. Then came the beginning of electrical development. Copper is the bassis of all electrical work. Without it, some other metal or combination of metals would no doubt be devised as a substitute, but copper is the ideal metal for electrical work of all kinds and in it finds its greatest use.

Great as the Superior mines, are however, they were not adequate to the growing demands made upon them, and the search for copper was pushed futher into the West. Natural, the Rockies were the most attractive field, and here copper eventnally was found and Montana came into prominence. Montana now produces, though at much greater exsupply, as against the 25,6 per cent, of this section. The lately developed mmes of Arizona are close rivals of the Michigan mines, producing 23.6 per cent. Expforation goes on constantly in every big mine in the country. Appalling Disaster on the B. & O. Accompanied by A Terrible Loss of Life

DIRECT CAUSE UNKNOWN

Train Running Sixty Miles an Hour Plows Through Motioniess and Crowded Passenger Train

Thirty-Five Killed and Several so Serious ly injured that they will die-Occurred near Washington, D. C.

An appalling disaster occurred at o'clock on the Baltimore & Ohio railroad at Terra Cotta, about three miles from Washington, D. C., in which about thirty five people were killed and over sixty injured, some so seriously that they will die.

The accident was caused by a collision of train No. 66, due here at 6:25 p. m., from Frederick, Md., known as the Frederick special, with a dead-head passenger equipment

Over 200 passengers were aboard the ill-fated train, and dead and ininred were strewn along the track for a distance of a mile.

Frank P. Bodlitz, a newspaper man of Frederick, Md., who was slightly injured, in describing the experience, said:

"I was in a car next to the smoker talking with a gentleman and his wife from Detroit, Mich. We were all standing up, the ear being crowded. Suddenly we heard an awful noise and then a crash.

"Women began screaming and the rolling down an embankment where some one picked me up and found I was not badly hurt. It was impossible to describe the scene. Women and children were shricking and drowned the groaus of the dying, children were running about crying for their parents and mothers and fathers were rushing around trying to find their children."

Entertainment At Mayfield.

A merry and happy throng of young people enjoyed a few hours of sociability last night at the residence of Mr. Harry Watkins, when his daughter Miss Maude entertained in honor of Sylvan Price, who is visiting friends in the city.

The house was brilliantly lighted and decorated with Christmas holly, and presented a very cheerful appearance. All was good cheer and the merry crowd of young people enjoyed life to its utmost for a few hours. At a late hour, delightful refreshments 'were served, and throughout the evening, Miss Agues Watkins served punch to the guests. - Mayfield Messager.

YOUNG MAN ENDS HIS LIFE NEAR TOLU

Suicide adds Another Victim to its Already Long List.

SON OF JOHN F. FRANKLIN

Young Dalias Franklin Left the Dinner -Table and Shot Himself Through the Head with a Pistol

He was About 19 Years of Age and Had no Apparent Reason for Committien Such an Act

Saturday about noon, Tolu and vicinity was greatly shocked by the snicide of Mr. Dallas Franklin, son of Jno. Franklin, at his home near this place. The father and son had been to H. H. Davenport to Mollie E. town during the formoon attending to some business matters. Returning about noon they found dinner awaiting them. During the meal Mr. Franklin had occasion to mildly reprove his son. Young Franklin hecame offended and retiring from the room repaired to a building near hy occupied by a colored family. Seating himself near a table he drew his pistol, a 38-calibre of the Iver-Johnson brand, and shot himself just behind the right ear, the ball ranging

> The report of the pistol brought the family to the scene and they found the young man in a dying condition. He was gently removed to the Franklin residence and Dr. Moore was hastily summoned, but before he arrived death had claimed its victim.

Young Dallas Franklin was the only child of Mr. and Mr. Jno. Franklin. He was about 19 years old, and some 6 or 7 years ago had been thrown by a horse and crippled which he had never got entirely over.

He is of a good family and many relattves throughout the county areshocked at the awful tragedy while his parents are prostrated with grief.

The remains were interred at the family burying ground at Union,

Keep Your Nerve

It is nerve energy that runs the organs of your boily. The storage hattery is the nerve cells in the brain and spinal cord, and from this hattery nerve farce is sent out through the system of nerves. Thekeep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nervine. It assists in generating nerve energy, it strengthens the nerves and makes the whole system strong and vigorous.

System strong and vigorous,
"I take pleasure in recommending
from hervins prinstration, insomina
and melancholy. After several
months sufferly from above diseases
I tried this mid-to-de and found immediate relief. It soothes and strengthens the nerves, chases away the
gloomy and depressing thoughts and
gives the sufferer renewed strength
and hope. It is a superb nerve restorer."

JUDGE JACOB SEEMANN, Madison, Wisconsin. Dr. Miles' Heart Cure is sold by your druggist, who will quarantee that the first bottle will benefit. If it falls he will refund your money.

Quall-Eating.

Ben Wilcox the calored cook who has enjoyed a local reputation as a council for many years, is extending his renoun to other parts of the state as attested by the following clipped from the Hartford Herald. The quail eating at Mr. G. A. Shelton's railroad camp, in north Hartford, last Samrday mght, was a most enjoyable affair. The quait, hiscnit, coffee and trimmings were prepared to a queen's taste, which was fittingly attested to by the hearty thanks of the guests to Mr. Shelton and management on their leave taking, Uncle Ben, the cook deserves special mention. He is the "best ever.

the insurance companies. It has been Arch Lockett. stated with a good deal of insistence that the companies are discriminating between the parties or corporation handling tobuceo; this is not the case. Some companies, domeetic and foreign, yielping to panie have retired from the field; they have cancelled their risksy as was their right, and will not accept tobaeco in rehandling houses. others, less timorous, have reduced their lines, - not for one, but for all. But in no case does discrimination exist and we can state on the authority of an agen who recently appeared before the "field men" of the insurance corporations doing business in Kentucky that where they buy tobacco at all, theytreat trusts, independent and farmers precisely alike, and will continue so to do.

Either they will insure everybody or nobody. - Henderson Journal.

Tailored shirt waists in silks and woolens are smart for street wear this season. Few lingeric waists are seen, except indoors, where the hand embroidered and lace trimmed waists of linen and lawn still hold their own for afternoon and evening wear. Black silk waists, so becoming to both

matrons and maidens, and to those who are stont, as well is to the s'ender, are the favorites. Roman pland silks and small check designs in silks have also sprung into an ama ing popu' anty These tailored waists are not ilway

severely plain, as the word 'tailore l' implies, for, though simply made, they Dept. P. Wilker-Barre, Pa. | are quite ornate in effect, especially when made of bright hard plands or of plain taffetas with lands or inserts of bias plaid Many otherwise entirely plain waists have a touch of color in the decorative effect of handsome but tons arranged each side of the front, or wherever the tyle of the waist permits the placing of ornamental buttons.

Tucks and plaits are characteristic of these waists, and unless there are plaits or pin tucks, or stitched folds in the front and back, the models will lack the stamp of fashion that is essential for an up-to-date woman nowadays.

An exceptionally becoming model for either challie, flannel, cashmere, or taffeta silk is here pictured. It may be made of plaid si'k, with the piastron, cufts and collars of plain silk, and en riched with pretty buttons, or may be made entirely of plan color. The pattern No. 1716 is cut in sizes 32, 34, 36, tern No. 1716 is cut in sizes 32, 34, 36, sizes 32, 34, 36, 48 and 40 inches bust measure. Price measure. Price 15 cents.

The illustration shows one of the very newest plaited waists, navy blue taffetas with fancy plaid bias pipings the quaint little pockets at either side of the front give it a very fetching, youthful touch If preferred, these pockets may be omitted without otherwise affecting the graceful lines of the waist. The style is suitable for either silks or woolens and is one that is bound to achieve im mediate success. The pattern No. 2028 is cut in sizes 32, 34, 36, 38 and 40 inches bust measure. suggested, looking up from the pattern she was drawing on the cloth with her coffee spoon, "to say I am not at home." On the rising inflection her voice sweetly pansed. The not-at-home fiction was an unfailing red flag to the bishop.

"Certainly not." "But, dear uncle, if not James, must I? Don't you see, he wouldn't believe it, for I'd be there-

'There are times, Katherine," the bishop said severely, "when your levity distresses me. This-er-young man has been ealling, I regret to know, very frequently. 'It's so hard to be inhospitable," Miss Strong murmured demurely. "So difficult to tell any one gracefully they can't come to see you-especially an old acquaintance."

"It requires tact," the bishop agreed On his way to his study a few moments later an afterthought made him follow his niece into the drawing-room. "I wish you to understand, Kitty," he mildly explained, with his back to the fire, "that I have no prejudices. A preon, what has he done? And while at

on a point of such invortance. Mackworth, on leaving the hospital, drove directly to the flat in which Valerius Gafbraith lived Gaining this, the inspector was at once admitted and shown into the handsomely furnished sitting-room, where he waited with the impatience of one who has important intelligence to communicate, taking off his gloves, stretching and placing them on the table, opening his great coat glancing at himself in the glass and smoothing down his fair meantine

It was seven o'clock when he entered the room, but half an hour had elapsed before Valerins appeared, attired in evening dress, his Inverness cape in one fair, handsome face slight'y flushed, an air of grace and distinction in the movements of his slight, well-made figure.

"Excuse me for having kept you so ong," he said; "hut I was dressing for dinner, to which I am going out." "I would not have disturbed you, sir, but that I have something very serious say," replied Mackworth, deliberately ing
